What is Strategy?

**“Nobody really
knows what
Strategy is.”**

The Economist

According to 2016 PMI's Pulse of the Profession

- More projects than ever before are failing
- 7 in 10 organizations have PMOs
- Organizations waste \$122 million for every \$1 billion invested
 - a 12% increase over 2015
- Only 10% aligning Portfolio management with Strategy implementation.

Strategy is...

- Integrated – how various business units come together
- Levels – organizational, business unit, team, PPM
- Collectively 3 steps, representing the deliberate choices of an organization at a point in time – “What is the business?”
- How to win
- **Strategy is how an organization defines its future course in order to win in the marketplace.**

“STRATEGY IS ABOUT MAKING CHOICES,
TRADE-OFFS; IT’S ABOUT DELIBERATELY
CHOOSING TO BE DIFFERENT.”

MICHAEL PORTER
