EXPERIENCE continued

Program Manager - Performance Management

Molina Healthcare / Long Beach / March 2016 - September 2019

Created and incorporated IT process improvements into EMPO methodology. Responsible for management and oversight & strategic direction for IT Programs by monitoring progress and ensuring milestones and deliverables are being met.

- Overseeing and optimizing relationships with IT vendors to ensure alignment with organizational goals, compliance with policies, and effective resource utilization
- Implemented IT control objectives for information and related technologies (COBIT) based IT core process framework to leverage for process improvement
- Assisted in linking IS budget allocations to performance metrics and outcomes

IT Finance Manager, IT Vendor Manager

UCI Medical Center / Orange, CA / March 2013 - March 2016

Developed IT capital and portfolio financial reports for CFO to discuss expenditures variances. Created cost containment and contract negotiations strategies in the implementation of IT project cost accounting for project/capital tracking while creating new workflows and process improvements.

- Responsible for working with IS leadership on yearly resource, operational and capital budgets exceeding \$30 million
- Collaborated with various teams and departments to ensure IT financial strategies aligned with the organization's overall business strategy
- Oversaw IT service-related invoices for processing as well as disputed invoices for sales tax errors, duplicate payment errors, invoice errors, and consulting travel expense errors which netted \$1M savings
- Developed and implemented financial models using advanced Excel skills to support budgeting and forecasting processes, resulting in 90% improvement in financial accuracy and efficiency
